

Prepare

Become familiar with ICD-10 codes for "Substance Use Disorder", "Serious Mental Illness", "Homelessness", and "Inadequate Housing" as these codes will be used for "Additional At-Risk Add-On" determination justification.

Schedule a VBP Training

Please register for one of our DHCS VBP Program webinar based trainings. If you are unable to participate one of the webinar trainings, please call HPSJ Customer Service at 209.942.6340 to set up a training with an HPSJ Provider Services Representative. We encourage your key team members that assist in billing and coding to attend the training.

Sign up online at:

Improve Your HPSJ Patient Care and Increase Your Earning Potential

DHCS Value Based Payment Program

Program Overview

The Value Based Payment (VBP) Program has been established and funded by DHCS to provide supplemental payments to providers for meeting specific measures aimed at improving care for our communities most vulnerable. Incentive payments are for VBP measures in the following areas:

- Prenatal/Postpartum Care
- Early Childhood Prevention
- Chronic Disease Management
- Behavioral Health Integration

Key Dates

July 1, 2019	VBP codes retro-effective date
Late May 2020	HPSJ Provider Services to perform training
TBD 2020 (Due to Covid-19)	Provider HPSJ Incentive Program Training

Participation

To qualify for supplemental payment, providers must be practicing within their practice scope and have an individual (Type 1) National Provider Identifier (NPI). For example, if a pharmacist (not the pharmacy) provides an immunization, then that pharmacist could receive payment.

The encounter data is the basis of performance scoring. DHCS will be distributing the VBP funds through HPSJ based on the data they receive.

2020 DHCS Value Based Payment Overview

Additional At Risk- Serious Mental Illness, Substance Use Disorder or (Homeless Z59.0, Inadequate housing Z59.1) diag.
